

User Guide

Helpful information on how to use some of your calling features and services.

• HOW TO USE 3-WAY CALLING

3-Way Calling lets *you* talk to two people in different places at the same time - even long distance.

- To add a third person, press and release the hang-up or flash button.
- Listen for the stutter dial tone, then dial the next person.
- When they answer, press and release the hang-up or flash button. You will be able to talk to both people at once.
- To deactivate, hang up for at least 2 seconds between calls until you hear a normal dial tone.

3-Way Calling may not be available in all areas or on all calls.

• HOW TO USE AUTO REDIAL (PAY PER USE).

When you get a busy signal or after you make a call, Auto Redial will call the number back for 30 minutes until your call goes through.

- When a number is busy, a recording will prompt you to press 3 to retry the number.
- When the recipient line is free, a special ring will enable you to answer the phone for your call.

• HOW TO USE CALL BLOCKER.

With Call Blocker, you can keep unwanted calls from getting through for up to 10 numbers.

- To activate, press *60.
- To establish or change a screening list of numbers, follow the instructions.
- If you have previously established your screening list, simply hang up.
- To deactivate, press *80 and follow the instructions.

Calls will not be blocked unless Call Blocker is on. In some locations, you must press *3 to turn your service on or off. Works only on calls within a service area.

• HOW TO USE CALL FORWARDING.

Call Forwarding forwards your calls to another number where you can be reached.

- To activate, press 72#.
- Dial the number you want to forward your calls to. Someone needs to answer this call to activate Call Forwarding.
- To deactivate, press 73#.

• HOW TO USE CALL RETURN.

When you can't get to the phone in time, use Call Return to automatically dial the last caller's number.

- To activate, press *69 (1169 from a rotary phone).
- To deactivate, press *89 (1189 from a rotary phone).

Call Return is turned off when your call goes through or after 30 minutes of call attempts. Measured Rate and toll charges may apply on returned calls. Works only on calls within your service area.

• HOW TO USE CALL WAITING.

With Call Waiting, you can put one call on hold while you answer a new one.

- To switch from one call to another, simply press the hang up or flash button.
- To turn off Call Waiting before a call, press *70.
- After the call, Call Waiting will be automatically restored.
-

• HOW TO USE CALL WAITING ID.

Call Waiting 10* displays the name and number on your Caller ID screen of an incoming caller when you are already on a call.

- Service requires Caller ID phones or display units which can be purchased from AT&T Texas, AT&T Arkansas, AT&T Missouri, AT&T Oklahoma, AT&T Kansas or other retailers.

You must subscribe to Call Waiting and Caller ID to use this service. Call Waiting ID requires a Caller ID-capable telephone or display equipment. May not be available in all areas or on all calls and may not be available internationally. Some calls may be blocked or otherwise unavailable.

• HOW TO USE CALLER ID -NAME.

Caller ID - Name lets you know who's calling before you pick up the phone.

- Caller ID phone or display unit required.
- Your caller's name will appear on the screen of the phone or display unit.

Caller ID - Name may not be available in all areas or on all calls and may not be available internationally. Some calls may be blocked or otherwise unavailable. Must have a Caller ID enabled phone or equipment.

• HOW TO USE CALLER ID - NUMBER.

Caller ID - Number lets you know who's calling before you pick up the phone.

- Caller ID phone or display unit required.
- Your caller's name and number will appear on the screen of the phone or display unit.

Caller ID - Number may not be available in all areas or on all calls and may not be available internationally. Some calls may be blocked or otherwise unavailable. Must have a caller 10 enabled phone or equipment.

• HOW TO USE PRIORITY CALL •

Priority Call allows you to assign a distinctive ring on incoming calls from up to ten numbers.

- To activate, dial *61 and follow the instructions.
- To deactivate, dial *81. Services may not be available in all areas. Not compatible with Personalized Ring.

• HOW TO USE SELECTIVE CALL FORWARDING.

With Selective Call Forwarding, you choose which calls you want forwarded. All other calls will ring at your home until you de-activate the service.

- To activate, press *63 and follow the instructions.
- To deactivate, press *83 and follow the instructions.
- To turn off the service (but to save the list), or to remove all numbers on the list, press 08, then hang up.

In some locations, you must press 3 to turn Selective Call Forwarding on or off. Selective Call Forwarding is not compatible with Remote Access to Call Forwarding. Service may not be available on all calls in all areas.

• HOW TO USE SPEED CALLING 8

Speed Calling 8 lets you dial up to eight frequently called local numbers by pressing two buttons per call.

To set up:

1. Choose a separate Speed Calling code (using numbers 2 through 9) for each phone number.
2. Press 74#
3. ENTER a Speed Calling code, and then enter the phone number for that code. Include **1** + area code if it's long distance.
4. LISTEN for several tones to confirm your entry.
5. HANG UP and repeat the steps for up to eight numbers.

To use:

- Enter the Speed Calling code for the phone number you want to call, and then press #.

The numbers 0 and 1 cannot be used for Speed Calling codes. Speed Calling 8 services may not work with certain types of telephone equipment. Toll and long distance charges will apply to calls placed outside your local service area.
